9. Fare clic sul Scheda di sicurezza e selezionare Tipo di VPN come Layer 2 Tunneling Protocol con IPSEC. Quindi fare clic su Impostazioni avanzate.

10. Selezionare Utilizzare la chiave già condivisa per l'autenticazione e immettere la chiave pre-condivisa IPSEC che sono stati inviati in email. Fare clic su Ok.

12. Fare clic destro sulla vostra connessione nuovamente e selezionare Collegare. Una volta che sei connesso la connessione verrà visualizzata se si fa clic sulla Rete icona in basso a destra del tuo schermo o in parte il Rete e condivisione centro. È possibile scollegare anche da qui.
